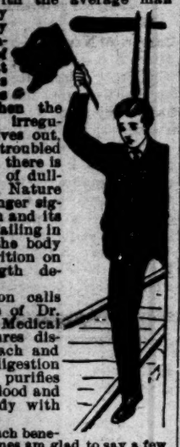
DANGER SIGNALS.



No engineer would be mad enough to run by the flag which signaled danger. It is different with the average man or woman. They attempt constantly to run by the danger signals of Nature and that attempt costs thousands of lives every year. When the appetite becomes irregular or entirely gives out, when sleep is troubled and broken, when there is a constant feeling of dullness and languor, Nature is hoisting the danger signal. The stomach and its allied organs are failing in their work and the body is losing the nutrition on which its strength depends.

Such a condition calls for a prompt use of Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition, purifies and enriches the blood and builds up the body with sound, solid flesh.

"I have had so much benefit from your medicines am glad to say a few words that you may use for publication," writes Mrs. J. R. Downes, Crystal Lake, Conn. "Had been troubled with a complication of diseases for over two years, but kidneys and liver bothered me most. Some of my worst ailments were headache, frequent pains around heart and under right shoulder-blade. My hands and feet were cold nearly all the time, and I had such chilliness between shoulders. Some days cared but little for food; I lost flesh; felt so tired and miserable it seemed I couldn't do any housework. Took medicine from my physician, but received no benefit. Bought a bottle of 'Golden Medical Discovery,' and after taking it I felt so much better we determined to give it a fair trial. Appetite soon improved and gradually the disorders disappeared until now I am well."

A Great Doctor Book Free.—Send 21 one-cent stamps to Dr. R. V. Pierce, Buffalo, N. Y., to cover cost of mailing *only* and he will send you a free copy of his 1008-page Common Sense Medical Adviser, paper-covered. Cloth-covered 31 stamps.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water?

If you did what would you say of him?

It is every bit as foolish to try to get rid of Dandruff and to prevent Baldness by feeding the germs which cause it, with Cantharides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors.

Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots.

It is the original and only genuine scalp germicide manufactured.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

STRONG Again

is what Mrs. Lucy Stovall, of Tilton, Ga., said after taking Kodol Dyspepsia Cure. Hundreds of other weak women are being restored to perfect health by this remedy. YOU may be well if you will take it.

Indigestion causes nearly all the sickness that women have. It deprives the system of nourishment and the delicate organs peculiar to women suffer — weaken, and become diseased.

Kodol
Dyspepsia Cure

Kodol cures indigestion, constipation, dyspepsia, sour risings, belching, heartburn and all stomach disorders.

Labor Sluggers.

Apparent evidence that labor sluggers maintain in Chicago a place where systematic torture is meted out to those who incur the displeasure of the sluggers has just come to light in the strange case of William H. Wilder. Wilder was formerly an army officer, and at the time of the recent teamsters' strike was claim agent for a Chicago package express company. He disappeared July 6, was held captive for three weeks and was then set at liberty, half-starved and so dazed that he has not been able to give a coherent account of his captivity. He was found by a friend wandering aimlessly about near the Union Station, at Canal and Adams streets, and was taken to his home, at Downer's Grove. Physicians pronounce his physicial and mental condition such that he may not recover. Much of the time he raves wildly, and, as though still under torture, begs for mercy. Marks all over his body show that he had been bound with heavy cords. Over a hundred dollars he is known to have had on his person is gone. Wilder is an Englishman who saw service in the American army in Cuba and the Philippines, and held a commission as a second lieutenant in the regular army. He is a bold, outspoken fellow of 37 years, who gloried in his physicial ability to take care of himself, and defied pickets or sluggers to intimidate him.

Has Three Wives.

The police of Milwaukee, Wis., are looking for the Rev. O. C. Burt, formerly of Chicago and Newton, Pa., who is alleged to have more than one wife. Burt went to Milwaukee two months ago. He told his friends his voice had failed him, and while there retired as a minister in the Methodist Church and got a position as an advertisement writer. He said he had a wife in Chicago, and on several occasions she came to Milwaukee and visited him. On July 9 he took Annie Lemke, of Milwaukee, to St. Joe, Mich., where they were married. At about this time his Chicago wife, formerly Miss Annie Taylor, of Waukegan, and now a stenographer in the office of H. O. Shephard Company, retained Attorney J. F. Langan to investigate Burt's affairs. She then found, the lawyer says, that he had a wife in Newton, Pa., Mrs. Susie Smith Burt, besides the one in Milwaukee, Annie Lemke, and that he had not been divorced from either. Attorney Langan wrote Burt, asking him to explain, but the man left Milwaukee. A few days later he telegraphed from Niagara Falls to his wife in Milwaukee, and also sent her $5 by mail. That is the last heard of him.

Charged with Murdering Rival.

The coroner's jury in the case of Maurice Francis, the young Roanoke man who was shot from ambush and killed last Saturday night while on his way to visit his fiancee, Miss Grace Link, in Floyd county, returned a verdict yesterday evening charging John Richards, a public school teacher and medical student at the University of Virginia, with the crime. Richards has fled the county and is being pursued by an enraged posse. He is said to have been seen Monday night at a point twenty-five miles south of Roanoke, and it is thought he was making his way to North Carolina. Several people testified before the coroner that Richards was in the vicinity of the scene of the crime just before the shooting and that he carried a double barreled shotgun. Miss Link declares that Richards concealed himself in the bedroom one night last week, intending to kill her, but that he escaped when she gave the alarm.

All Stock Subscribed.

The Summary, a Wall street newspaper, says: "The privilege accorded to the stockholders of the Seaboard Company of subscribing to the new first preferred stock of that company expired on the 28th instant. All the first preferred stock to be issued under the plan was subscribed to by the stockholders themselves. An underwriting syndicate composed of parties largely interested in the property had agreed to purchase, without discount or payment of commission, all of this first preferred stock not subscribed to by the stockholders of the Seaboard Company."

A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the oldfashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipiency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in in case of cholera infantum. For sale by Gibson & Timberman and W. F. Creighton & Co.

Conviction Follows Trial

When buying loose coffee or anything your grocer happens to have in his bin, **how do you know what you are getting?** Some queer stories about coffee that is sold in bulk, could be told, if the people who handle it (grocers), cared to speak out.

Could any amount of mere talk have persuaded millions of housekeepers to use

Lion Coffee,

the leader of all package coffees for over a quarter of a century, if they had not found it superior to all other brands in

Purity, Strength, Flavor and Uniformity?

This popular success of LION COFFEE can be due only to inherent merit. There is no stronger proof of merit than continued and increasing popularity.

If the verdict of MILLIONS OF HOUSEKEEPERS does not convince you of the merits of LION COFFEE, it costs you but a trifle to buy a package. It is the easiest way to convince yourself, and to make you a PERMANENT PURCHASER.

LION COFFEE is sold only in 1 lb. sealed packages, and reaches you as pure and clean as when it left our factory.

AND VIRGINIA ADVERTISER

WEDNESDAY EVENING, AUG. 2, 1905.

SECRETARY of Agriculture Wilson is learning by experience. When he returned to his desk yesterday after his visit to the President at Oyster Bay and heard of the allegations that there were suspicious circumstances in connection with the label printing contract for the Bureau of Animal Industry he did not declare there could be no truth in the rumors, as he did when the cotton report scandal was first unearthed, but at once directed the chief of the bureau to begin an investigation. Secretary Wilson has discovered that the most energetic protestations of innocence are not to be taken at their face value, and there will accordingly be an overhauling of the Bureau of Animal Industry, with a view to discover how much truth there is in the stories that have been in circulation connecting an official of the bureau with the printing company.

TODAY'S dispatches from New Orleans are to the effect that the yellow fever is spreading, notwithstanding the many precautions of the authorities to keep the dread disease within bounds. A severe thunder storm yesterday and last night was followed by an alarming increase of cases. It generally takes a black frost to lay yellow fever, and while the malady may not assume the dimensions of an epidemic it is likely that sporadic cases will be reported in the southern country during the remainder of the summer and early fall. The disease about a quarter of a century ago spread over a large area, and people were compelled to refugee from southren cities in order to escape the disease. It reached Alexandria in has by-gone years.

BREAKING all bounds the yellow fever has invaded the homes of the rich in New Orleans, spread to surrounding parishes and has reached out 800 miles away to Montgomery, Ala., which city is in a state of excitement owing to the discovery of a case there. An official report that a most virile case of yellow fever is in Montgomery is sent from that city. A further spread there is feared. It is no exaggeration to say the entire South is threatened with this dread disease and it will be a long time before frost. Still the southerners are a brave people and will continue to fight the yellow scourge till it is eradicated from their fair land. In their efforts they should receive the aid and support of all their fellow countrymen.

IN AN ADDRESS to the Public Health Congress in London last week, Sir James C. Brown, the specialist in mental and nervous diseases, took issue with the Osler theory of human usefulness. He thought that much of the world's best work had been done by men over 40 years old, and quoted numerous instances to prove this. He declared that every man was entited to a century of life, and a woman to a little over a century. This, he said, could be reached only by faithful obedience to the laws of health and with simplicity and tranquility in living. But those are secrets which Sir James does not reveal.

DESPITE the desire of the Navy Department to bring the Marine Corps up to its full quota of 14,000 men, there is a scarcity of the right material and the number in the barracks is dwindling to such an extent that some of the posts are reduced to half the regular strength and others have been temporarily abandoned. The men of this country are becoming too independent now to voluntarily place themselves under restraint and many believe that it will not be long before "drafts" are necessary to secure men for the army and navy and marine corps.

THE National Food Manufacturers' Association has recently been organized with headquarters at Chicago, for the purpose of protecting legitimate manufacturtes of food and to carry the war for satisfactory legislation before the next Congress. The association should receive the encouragement of all honest people. The adulteration of foods has grown to an alarming extent and is the cause of many of the ills with which mankind is afflicted.

GOVERNOR and Senator La Follette, of Wisconsin, seems to have made up his mind to be surprised at nothing that may happen in the world of politics. "The coming national campaign will see the smash-up of both great political parties" is his latest and most startling venture in his line of forecast.

THE MONTHLY statement of the public debt shows that at the close of business on July 31, the public debt amounted to $1,002,049,001, which is an increase for the month of $12,182,229. But this is a billion dollar country the republican leaders say!

THE health authorities of New Orleans believe they have the yellow fever situation well in hand and that they will be able to stamp out the disease before frost. Let all hope that this is so.

(Correspondence of the Alexandria Gazette.)

Washington, D. C., August 2.

The fact is quite evident that there is friction between the Department of Justice and the Agriculture Department because of the manner in which the investigation of the scandals have been carried on in the latter. The Department of Justice officials are miffed, it seems, because the Agriculture Department indulged itself in a pronounced flare of trumpets that succeeded in frightening away those whose presence here is absolutely indispensable to a successful prosecution of the charges. Then, having tied things up in a knot, it deftly shifted the matter and the responsibility for same to the Department of Justice by demanding criminal prosecutions. At least that is the Department of Justice view of the situation. Assistant Attorney General McReynolds, to whom the case of Geo. T. Moore has been referred, is not at all hopeful that a prosecution will lie or that anything more will come of the matter. Nor do his associates promise themselves any much more startling results from the grand jury investigation now pending in the matter of E. S. Holmes, jr. Attorney General Moody is expected in the city tomorrow and it is believed to be his mission to endeavor to establish a more harmonious relationship between the two departments. Although it is likely that one, or possibly two indictments may be returned against Holmes, unless further evidence can be adduced than that which the grand jury has been able to secure, there is serious doubt that Holmes could be convicted on trial. It is understood that thus far the only direct testimony against Holmes secured by the grand jury is from Broker Van Riper, of New York.

A case of interest to labor circles generally was docketed in the United States Supreme Court today. It comes from Haverhill, Mass., where John Berry was a skilled workman in one of the great shoe factories. This factory had an understanding with the labor union there that only union men should be employed by it and that the union would furnish the men. Jerry Donavin, the walking delegate of the union, informed the firm that Berry refused to join the union and Berry's discharge resulted. Berry sues Donavin for damages and recovered judgment for $1,500. Donavin has appealed the case to the U. S. Supreme Court.

The Treasury receipts today were $2,236,422 and expenditures $2,570,000.

In face of poor cables a coveriug movement in cotton developed in New York this morning and after the call prices advanced quite sharply. There was little changes in the news to account for the rally which seemed to be due principally to an over sold condition among traders and an effort to take advantage of whatever weakness might follow the lower cables.

Leaving a note to her mother that she was a ruined girl, Miss Ella Young, of Ottumwa, dressed herself in her prettiest gown, then lying down on a bed drank carbolic acid.

Rioting in San Juan.

San Juan, P. R., Aug. 2—Serious rioting occured here to-day in connection with the strike of the longshoremen which has been in progress for some time. Two dead and forty men injured, some of them seriously, is the record of the outbreak which is the first strike riot which has occurred in any of the colonial possessions of the United States. The strike is directed against the Porto Rico Steamship Company which has refused to grant the demand of the longshoremen for an increase of 10 cents an hour in their wages. It decame necessary to-day to call out the police to quell the strikers who had become riotous. The officers were unable to disperse the rioters by peaceful means, however, and finally fired on the mob. Two men were killed outright and forty others were injured by the volley. It is feared some of the wounded men may die. The streets are now being patrolled by the police who are armed with loaded carbines.

Threw a Rock in the Dark.

Vincentown, N. J., Aug. 2.—The Rev. J. Franklin Long has been barred from Trinity Episcopal Church, of which he is rector, because he was too outspoken in the pulpit. In a recent sermon, Mr. Long spoke on "The White Slave Traffic in Philadelphia." He said it not only existed in that city, but in smaller towns as well, and he continued: "There is a woman in this congregation who used language which she should not have uttered, and it was of such a character as to make me blush." Instantly there was a commotion, the cap seemingly having fit a member of the congregation, and the next day the vestrymen asked the rector to resign. He refused, and the church doors were locked on him.

News of the Day.

Carnes was instantly killed by a Southern Railway train yesterday morning, at a curve of the railroad where a footpath crossed. D. A. McAllister, the engineer, stated that he saw the woman some distance before the train reached the crossing, and that she saw the train, first stopping to let it pass, and then starting to cross when the engine was about seventy-five feet from her, and the train going at the rate of about fifty miles an hour. McAllister threw the emergency brakes on immediately, but it was too late. Almost every bone in the woman's body was broken.

President Charles M. Leitch, of the City Council of Wilmington, Del., will be ordered by the Secretary of the Treasury to resign his position in the government of that city or give up his job as a Deputy Collector of Internal Revenue. Secretary Shaw has decided Leitch cannot hold both places. It is probable the action taken in this case may have an important bearing upon the case of William S. Leib, assistant treasurer of the United States at Philadelphia. Leib is machine boss of Schuylkill county, and is now under investigation by the Civil Service Commission on charges of undue political activity and the assessing of candidates.

THE WAR IN THE EAST.

The impossibility of defending the coast of the Ussuri territory resulted in the abandonment of the entire province bordering on the Pacific almost before the Russian people knew the Japanese were planning an occcupation of the territory. The Japanese are already establishing a base at Port Castries for 30,000 men and 72 guns, with the view of occupying the lower territory of the Amur river.

They are preparing to operate from Saghalin along the Amur river, which is 80 versts from Port Castries, the route being along a good cart road, to Sofinsk, on the lower Amur. Thence they can advance north to Nikolaievsk and south to the Khabarovsk. It is expected that this movement will be accompanied by the dispatch of a flotilla of gunboats and torpedo boats to the Amur river.

The entire Russian force in the Ussuri territory consists of nine battalions of infantry, with a reserve regiment formed at Blagovestchensk. They have no artillery. It is impossible to send reinforcement from Vladivostok, which is daily threatened with siege by General Hazewaga's army. This leaves open to the Japanese the shore of the Ussuri territory south of Port Castries to the Gulf of Peter the Great. Russia can only expect the return of this territory as the result of the peace negotiations.

General Linevitch has telegraphed to the Czar, under date of July 25, denying the frequently published reports that his army was completely surrounded. He says that the army has never been in a dangerous position. The flanks have never been turned, although the Japanese sought to do so, "the Japanese, who are some distance from our principal position, having failed in their attempts to approach them." The General adds: "The morale of the troops inspires me with complete confidence that the army is ready for any task."

Suicide of Young Wife.

Mrs. Fred Schneider, the 18-year-old wife of a merchant tailor, of St. Joseph Mo., committed suicide about midnight Monday night by jumping into the St. Joseph river before the eyes of several hundred spectators. Mrs. Schneider sank before any assistance could reach her and it was two hours before the body was recovered with grappling hooks. The young woman was the daughter of N. O. Osborne, of Chicago. March 15, 1904, she eloped with Schneider and the couple were married in Indiana. They then went to St. Joseph and lived with Schneider's parents. Domestic troubles developed and culminated in the young wife leaving her husband last spring. Mrs. Schneider met her husband Monday night in a park, and, it is alleged, after taxing him with not supporting her, said: "I have no means of supporting myself and I am going to drown myself." She went straight to the river and carried out her threat. The husband of Mrs. Schneider was placed under arrest yesterday and will be held, it is said, until a verdict is given by the coroner's jury, which will investigate the suicide.

Grandmother, Aged 34, Divorced.

The youngest grandmother in Missouri was given a divorce in Kansas City last week. She is Mrs. Frank M. Milice, 34 years old. She has two daughters, one 20 years old and one 10, and two granddaughters, one of them 3 years old. It was the second time she had been divorced. When she was 14 years she married Charles Harper. A few years ago she was divorced from him. On August 11, 1898, she married Milice, but he left her two years ago. Her lawyer asked her if it was on account of her cooking that her husband left her. She replied: "No, sir; There's not a better cook in Kansas City. I cooked so well that it made my husband eat so much that he would get sick. I think the day will come when he will see the error of leaving so good a cook."

Matilda Ziegler, by paying to her $1,500,000 in release of all her dower rights and other claims of the estate of her late husband. She is to get $1,200,000 in cash and $1,300,000 in stock of the Royal Baking Powder Company. Wm. Ziegler, the 14 year old adopted son of the testator, consented to this settlement.

A dispatch from Heathsville says that Mr. C. Lucum, of lower Fairfields, was killed by lightning early Monday morning in his bedroom, during a violent thunder-storm. Mr. Lucum was sleeping in an upper room, when a member of the family called him. While opening the door a bolt of lightning entered through a window, killing him instantly.

A midsummer snowstorm raged in the Blue Ridge, in Rappahannock county, on last Sunday evening. Mr. Jacob Sours, of Page county, who was caught in the storm, says that for nearly an hour the snow came down thick and fast, forcing him to seek shelter. The snow followed a severe hailstorm which visited that section at a late hour on Saturday night.

Gloostor Manor, one of the most beautiful country homes in Albemarle, and for several years past occupied by Dr. F. D. Owsley, was sold yesterday to a wealthy Chicagoan, the price paid being $50,000. Gloostor Manor is situated near Greenwood, in the western end of Albemarle, and was formerly the property of Albert Lambert, one of the manufacurers of listerine, being known then as Alton Park. Mr. Lambert purchased the place from a Mr. Purcell, of Richmond. Dr. Owsley paid $20,000 for the property, but has spent more than double that sum on the farm and improvements.

Testimony before the grand jury in Richmond yesterday, it is said, shows that there was considerable crookedness in other wards than Monroe in the recent primary election. The voters of Lee ward, known as the "silk stocking" district, testiged yesterday. While the orders of the court prevented any from saying what their evidence was, it is pretty well understood that there were some glaring discrepancies brought to light. If rumors are borne out by the report of the grand jury, there will be more indictments and a new primary, which will almost certainly result in at least one or two nominations different from those made by the first primary, which many now regard as having been a stupendous steal. Indications are that there was a combination to elect a certain set.

Telegraphers Strike.

A dispatch from St. Paul, Minn., says that the breaking off of negotiations between the railway officials and the representatives of the Order of Railway Telegraphers at ten o'clock yesterday, General Manager Horn, of the Northern Pacific, followed the example set by the Great Northern Monday night, and gave orders for a general lookout of all telegraphers on the company's lines who refused to sign the revised schedule and agreement relating to rules and wages. Superintendents of the different divisions of both roads have been and are now making the rounds of the stations and giving the operators the alternative of signing the company's schedule or leaving work. General Manager Horn, of the Northern Pacific, stated last night that reports coming in from the superintendents so far indicated that about 75 per cent. of the men were signing the schedules. The percentage on the Great Northern, according to General Manager Slade, was slightly under 70 at 10:30 last night. Substitutes are being made wherever possible for the men who go out, and by relying on the telephone auxillary service in a few districts the roads so far have avoided all interference with traffic.

Today's Telegraphic News

Spread of Yellow Fever.

New Orleans, Aug. 2.—The heat of the forenoon yesterday and the thunder storm during the afternoon and night caused an alarming increase in the number of new cases of yellow fever within the past 24 hours. There were forty-two new cases and six deaths. Experts attribute the two-fold increase in the number of new cases to the extreme heat of Monday night, which was by far the hottest of the year, and the suffocating heat of yesterday afternoon which was followed by an unusually heavy thunderstorm in the afternoon and which continued until night. From the time the storm broke until it spent its fury there it was a big jump in the number of cases. From three o'clock until six reports galore were received from new cases.

Up to date 346 cases of yellow fever have been reported to the Board of Health and 68 deaths. The foci to date is 53. Shreveport has developed one case of yellow fever.

Gov. Jelks, of Alabama, despite the fact that there is a case of yellow fever in Montgomery, issued a proclamation closing the entire state to Louisiana.

It is more than likely that the U. S. Government within afew days will be asked to take charge of fever here. Rumors to this effect are current in commercial circles. It is also probable that the United States government will be asked to send Surgeon General Wyman to direct affairs. A petition was circulated today on the Cotton Exchange by W. J. Fagan, a broker, requesting the United States to take charge of the situation. It was signed by the majority of the members of the exchange.

A clash between the troops of Louisiana and Mississippi was narrowly averted through the back down of Governor Vardaman, of the latter state.

Late yesterday afternoon matters looked serious, as Governor Blanchard had just been informed that the Mississippi troops had crossed over into Louisiana at Port River, and that their patrol boat had also interfered with the Italians and stopped traffic at Lake Borgne canal.

As soon as Governor Blanchard was made aware of the facts of the case he immediately ordered out the naval reserves and gave orders to get the gunboat in readiness and proceed to Lake Borgne canal. Governor Blanchard did not stop at ordering out the naval reserves, but wired to Washington and informed the Federal authorities of the status of the case. Later Governor Blanchard wired and also telephoned to Governor Vardaman and demanded an explanation. He informed the Chief Executive of Mississippi, in plain but strong language, that he would not tolerate such outrages. Governor Blanchard also informed Governor Vardaman that traffic in Louisiana waters would not be interfered with by Mississippi troops and that all traffic would be protected by an armed force the from State.

Governor Vardaman's reply was meek and mild. He said he knew nothing of the interference and that from the information he had at hand his troops were hungry and only crossed the State line to purchase something to eat, as the meagre supply they had with them had become exhausted. Gov. Vardaman also said that he was sorry that the affair occurred and promised that it would not happen again. He said that the troops crossed over into Louisana without his knowledge and consent. Should the Mississippi troopers enter Louisiana and attempt any of their high handed tactics today there is liable to be trouble. Gov. Blanchard has issued orders that the local division of the naval reserve be kept in readiness and also that the gunboat which is owned by the State be in shape should further trespassing occur today.

The City Council today passed the anti-mosquito law by a unanimous vote. The law reads that any property owner that has not got his cistern screened and oiled will be fined $25. Mayor Behrmann immediately signed the ordinance. It will go into force Thursday night. More complications have arisen over the quarantine and the ordering out of the troops in Mississippi.

Murderer Captured.

Trenton, N. J., Aug 2.—Charles Long, the Trenton negro murderer and outlaw, who for the past couple of weeks has been hunted through woods and swamps near Plainfield, was captured about ten o'clock this morning by Chief Kiley Detective McCarthy and Patrolman Higgins of the Plainfield police. The murderer was plowing on the Vance farm, which starts at Dismal Swamp, when Kiley, McCarthy and Higgins crept up to the field from three different directions. As they appeared in the open with leveled pistols. Long dropped the plow handles and reins and sped for a short distance over the field. He stumbled in the furrows and his progress was slow and unsteady. Almost blinded he ran toward Kiley, then dashing back at sight of the gleaming pistol stood motionless in terror. Slowly the officers of the law circled in upon the trembling negro and in a brief time the man who for so many days and nights eluded dozens of pursuers was a prisoner.

Dislocated His Arm.

Leiperville, Pa., Aug. 2.—A 15 round fight last night between Eddie Lenny and "Young Mack," of Chester, ended in the tenth round on account of Lenny dislocating his left arm. Both boys entered the ring in fine fettle. The seventh round was the hottest. The boys mixed it up fine, exchanging face and body blows in gattling gun fashion. Lenny scored a number of telling blows in the ninth, catching Mack solidly on the jaw and ribs. An injury to Lenny's arm happened in the third round, but was not perceptable until the tenth.

Robbers Captured.

Somerville, N. J., Aug. 2.—A posse of citizens and police surrrounded a barn near Finder this morning and captured John Duffy, James Reynolds and Dennis Harrington who robbed the summer residence of M. Sterling near here last night and held up and robbed Edward McManus, a farmer, on the highway. They were arraigned before Justice Mitchell and held for the Somerset county grand jury. Harrington is a desperate character, and is an ex-convict.

Child Killed by Car.

New Haven, Conn., Aug. 2.—Earl B. Brown, a motorman, ran his car over and killed a child here today. A few minutes later he was telling a young woman on another car of the accident, when she was overcome and fell to the road. She died in a few minutes. Brown was so affected by the two tragedies that he lost his mind.

The Peace Negotiations.

St. Petersburg, Aug. 2.—The belief is growing in all circles here that the government is preparing the public for the failure of the peace negotiations. In this opinion well-informed men say the pessimistic statements which have been made by M. Witte, Russia's ranking plenipotentiary to the peace conference, cannot be explained on any other ground. The correspondent of the Publishers' Press learns that the telegram from Gen. Linevitch announcing that the army in Manchuria is ready for any task, which was made public yesterday, was really really received a week ago, but was held up so that its publication should be almost simultaneous with the arrival of M. Witte in the United States. It is stated that the Czar has again fallen under the influence of the jingoes who favor the continuance of hostilities, who hope that the issuance of the manifesto calling a popular assembly, which will be made public on August 12, will create enough enthusiasm to make it possible to continue the war.

New York, Aug. 2.—M. Witte, the Russian peace plenipotentiary, will arrive this afternoon on the North German Lloyd steamer Kaiser Wilhelm der Grosse from Europe. The steamer was in communication by wireless telegraph with the station at Sasconsett, Mass., at midnight when the vessel was 80 miles east of the Nantucket nightship. The Kaiser Wilhelm will dock about four o'clock.

In an interview which was flashed by wireless to the Ssasconsett station, M. Witte says that there is little likelihood of a successful termination of peace negotiations. M. Witte said: "I am afraid peace negotiations will be ended within a week. The conditions are too intolerable to admit of discussion. I am happy to visit America, which country I am most anxious to know. I shall also be glad to have personal intercourse with Presideht Roosevelt who has reached such a prominent position as a statesman and to present to him the greetings of Emperor Nicholas. It has been stated that I am to test the ground for floating a Russian loan in America and discuss the relations between the two countries, especially regarding commercial affairs. My only mission is the negotiations for peace; but, I am quite ready to express by personal opinion on questions affecting the relations between Russia and America, with a view to further strengthening the traditional friendly feeling between St. Petersburg and Washington.

The Zionists.

Basel, Switzerland, Aug. 2.—Israel Zangwill, the noted author, has decided to accept the presidency of the new National Jewish Territorialist league which has been organized by delegates and visitors to the Zionist Congress who do not agree with the plans of the old organization for Jewish colonization in Palestine. The offer of the presidency was made to Mr. Zanwill yesterday when the new organization was launched, but the novelist at first declined. He has since reconsidered his decision. President Zangwill will institute negotiations with Premier Balfour of England at once offering to accept on behalf of his organization the offer of the English government of a tract of land for colonization purposes in East Africa. This offer was rejected by the original congress and this action led to the secession of the delegates who have formed the new national league. Nearly 150 of the men who came here as delegates to the original congress have joined the movement of the National Jewish Territorialist League, and a goodly number of the visitors have also cast their lot with the new movement. All of the delegates from America have remained through the Zionist congress.

Left for Washington.

Oyster Bay, N. Y., Aug. 2.—Attorney General Moody left for Washington, this morning, after a day's visit at Sagamore Hill. The conference between the President and Attorney General was, of course, mainly devoted to the recent scandals in the Agriculture Department. The President was desirous to learn from the legal advisers of his administration just what punishment can be meted out to the "grafters" and what steps are being taken by the Department of Justice to bring that punishment about. The Attorney General told the President that his department is busily engaged in gathering what evidence is obtainable in the Hyde and Holmes cases and is preparing to prosecute the ex-officials in the court if the grand jury at Washington returns the indictments that the federal officials are demanding. The Attorney General also told the President that until some new legislation is enacted the government's efforts to suppress up-to-date rascality in the departments will be futile.

The Court Adjourned.

New York, Aug. 2.—District Attorney Jerome appeared before Justice Davey, of Rochester, in the criminal branch of the Supreme Court today and on his request that branch of the court was adjourned until September 11. The District Attorney, in making his request that court be adjourned, said in all probability when it reconvened on September 11 he would ask for an order directing the immediate empannelling of a special grand jury to investigate the affairs of the Equitable Assurance Society. Continuing he said: "The result of the investigations made by the superintendent of insurance, the directors of the society and myself, discloses an extraordinary condition of affairs affecting not only the community of this city, but the people throughout the United States and the world."

Fraud Exposed.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. W. E. Moore Liberated.

Albany, N. Y., Aug. 2 Governor Higgins today authorized the liberation from State prison of William E. Moore, of badger fame in New York City. Moore was the husband of Fayne Moore, who enticed Martin McMahon the wealthy proprietor of the New Amsterdam Hotel, to her room in a hotel, where the panel game was worked on him by herself and husband.

The case caused a great sensation at the time, because of the prominence of McMahon. Mrs. Moore turned State's evidence and Moore was convicted and sentenced to 20 years in prison. McMahon has since died in California, and Mrs. Moore is said to be in Paris.

A Bridegroom's Reception.

Wilkesbarre, Pa., August 2.—W. A. Carver, of Nanticoke, near here, who was married a week ago, returned from his wedding trip last night, and as soon as he alighted from the train, he was kidnapped by a party of friends. They had a coal wagon, decorated with flags and bunting, and with seats for twelve people, besides a big seat in the centre for the bridegroom. He was placed in this, a big lantern held before his face, so all could see his expression and, with his twelve friends blowing big horns, was driven through the town for two hours. He was then taken back to his bride, who had been escorted home by friends.

Wholesale Flogging.

Odessa, Russia, August 2.—The wholesale flogging of the the peasants of the Erivan district who are accused of insurrectionary conduct has been ordered for tomorrow. Two battalions of troops have been designated to have charge of the flogging operations. A vigorous protest has been made against this savagery but no attention has been paid to the public outcry. There is some chance that the government authorities at St. Petersburg will countermand the order for the whipping at the last moment, and this is the last hope of the peasants to escape the punishment which has been ordered for them.

Charged With Forgery.

Paterson, N. J., Aug. 2.—Mayor Belcher, of this city, is charged with being a forger, Geo. Walle, Secretary of the Manchester Building and Loan Co., declares that his signatures on books given as collateral for loans from the German-American, Hamilton and Citizens' trust companies are forgeries. The amount involved cannot be definitely stated, but the banking officials admit that it is over $10,000. The Mayor is said to have confessed to the forgery and asks for time in which to make restitution. This was readily granted.

Fighting in Arabia.

Constantinople, Aug. 2.—The Turkish troops which are advancing toward Sanaa in the Yemen province of Arabia have occupied two strong positions in Arabia. The rebels who have been operating in the neighborhood of Sanaa have suffered great losses in the conflicts which have occured with the troops and have retreated from the immediate vicinity. The losses sustained by the Turkish troops were insignificent.

Ran Off With The Diamonds.

Camden, N. J., Aug. 2.—Two negroes entered the store of Smedley and Son, jewelers, at Broadway and Cherry street at noon today and while a clerk was showing them some cuff buttons, snatched a tray of diamonds and made off. A suspect has been arrested but the jewels have not been recovered. They were valued at one thousand dollars.

Note from France.

Paris, Aug 2.—Premier Rouvier this afternoon handed to Prince von Radolin, the German Ambassador, a note which sets out the views of France as to matters which should be made the basis of the programme for the coming international conference on Moroccan affairs.

New York Stock Market.

New York, Aug. 2.—The opening changes in the stock market were narrow and reflected indecision on the part of the professional contingent over the limited success that so far has been attained in depressing prices. Although the reactionary tendency in the market averaged about half per cent. in the Standard Railway shares and from 1¼ in some specialties the market toward the end of the second hour abruptly recovered, in many cases, to or above last night's closing. Copper stocks showed great stability and were the feature.

There was a decided improvement afternoon, and although the room traders had exchanged to the bear side they found stocks scarce and a good demand for anything.

Demand a Cotton Bureau.

President Jordan and Secretary Cheatham of the Southern Cotton Association yesterday issued a statement addressed to the members of the association, calling attention to the recent disclosures in the cotton statistical work in the Department of Agriculture, declaring that efforts are being made to divert attention from the "deficiencies" of the system itself "to the thieving propensities of a few unworthy officials," and setting forth demands to be made on Congress to reform conditions.

Monkey Tore Off Her Skirt.

Ben, a monkey owned by Edward Heckerman, a Bedford, Pa., druggist, recently went on the rampage, broke out of its cage in the window of the store, and, fleeing to George Thompson's store a few doors away, attacked Mrs. Harvey Davidson and her aunt, Mrs. Peter Nichols, of Pittsburg. Mrs. Davidson's skirt was torn to pices, but she succeeded in shaking the monkey off. The animal then attacked Mrs. Nichols, tearing the flesh off her right wrist and arm.

[COMMUNICATED.

Blocking Crossings.

While our police are bringing violators of the law to justice why is it they overlook the blocking of Henry street, at Wolfe, by freight trains nightly? Monday night this crossing was blocked from 10 p. m. to 10:27—27 minutes; last night it was blocked from 8:55 to 9;32—37 minutes. There is no reason why this should not be stopped.

OBSERVER.

Will Held Up.

It has developed in Norfolk that Mrs. Catharine A. Finck, aged sixty-five years, who died in that city two weeks ago, left a will by which she bequeathed property valued at upward of $27,000 to Mrs. Pete Heinz, wife of a brother of Heinz, the pickle manufacturer, and some valuable residential property to Rev. Dr. J. E. Thacker, pastor of the Second Presbyterian Church of Norfolk, and formerly in charge of the Second Presbyterian Church in this city. The property bequeathed was made over to Mrs. Finck by her husband, who thought he had an only will made by his wife, which gave him back all the realty at her death. After Mrs Finck's death the husband telegraphed to Chicago for Mrs. Heinz, who was a close friend of the family, and upon her arrival, she informed him of the new will by which she was a large beneficiary. Finck then ordered Mrs. Heinz out of his house, it is said, and she left. An unknown Washington attorney appeared several days ago with Mrs. Finck's new will, but this has been held up for the time being by the filing by the husband of the will he had in his possession. Rev. Dr. Thacker is now away on his summer vacation. The second will was drawn up in Washington. Finck says he gave his wife a $400 funeral and shortly before he gave Dr. Thacker $500 toward his new church.

Mr. Finck says that he is satisfied that his wife didn't sign a will of the date of the alleged second one, as she was sick at that time. And, besides, he says that in later years his wife was not sound of mind, and he is accumulating evidence to show her mental impairment, which he says dates back fifteen or sixteen years before her death.

Died at Sea.

Mrs. Dollie Edmonson Vedder, aged sixty-one years, a first-cabin passenger and widow of Major F. C. Vedder, U. S. A., died July 27 at sea on the North German Lloyd steamer Bremen. Her body was carried to New York and it will be interred at Fairfax. The deceased was a native of this city, being a daughter of the late Thomas A. Waters. The deceased will be remembered by many Alexandrians. She was a lady of most agreeable personality. Mrs. Vedder was with her friend, Mrs. Joseph T. Moore, of Sandy Spring, Md., and was returning from a tour of the continent of Europe when death overtook her. For several years past Mrs. Vedder had been a resident of Fairfax county, where a wide circle of friends and neighbors will learn with unaffected sorrow of her sudden death. She was a warm personal friend of the late lamented Joseph Jefferson, and was a woman of the broadest cultivation and the most sympathetic and responsive nature.

Chapter of Mishaps.

Some excitement was created Monday night about 11 o'clock when the excursion steamer Jane Mosely was returning to Baltimore from an excursion to St. Michaels, Talbot county, Md., with about 1,000 colored passengers on board. Some difficulty was experienced by Capt. Sprigg Simmons in making a landing at McComas's coal wharf, at the foot of York street. In order to make the landing Captain Simmons was rounding the steamer up in the middle of the harbor to get a fair course for the wharf when a rapidly moving bugeye bound up the harbor ran her bowsprit into the joiner work above the steamer's waist, making a large hole. The impact was felt throughout the steamer, and some of the passengers were thrown into a panic. The Mosely went aground on Sunday night with 700 colored excursionists on board and did not reach Baltimore till yesterday.

Henry Ashen, arrested by Lieutenant Smith for disorderly conduct, forfeited $5 collateral by failing to appear.

The New Ferry.

Work on the ferry house and slip at the foot of King street is rapidly nearing completion, and the work, it is said, will be finished during the next ten days. The steamer Lily and Howard has arrived from the lower river with the necessary oak piles to complete the slip. When these shall have been placed in position everything will be in readiness for the ferry boat which is expected to be here by that time. As will be seen by an advertisement, the partially destroyed steamer Columbia will be sold at public auction on the 16th instant.

Fight with a Snake.

A lady living on Fairfax street, between Prince and Duke, had an experience with a two-foot moccasin snake yesterday. The reptile was making itself at home in the yard and in front of the porch. The lady utilized a hoe in her attack upon the ophidian, but she failed to deliver a knock-out blow. The snake showed fight, but eventually retreated in good order. There is considerable anxiety among the neighbors, as it is believed that the reptile does not confine its movements to the yard in which it was seen yesterday.

Grave Trouble Foreseen.

It needs but little foresight, to tell, that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young, of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters, I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. Sold under guarantee by E. S. Leadbeater & Sons, druggists at 50c a bottle.

WEDNESDAY EVENING, AUG. 2, 1905.

HICKS FOR AUGUST.

Hicks gives the following predictions for August:

The first period will extend from the 4th to the 8th, having its centre on the 6th. Storm conditions, which in the form of falling barometer, increasing humidity and warmth, with growing cloudiness, will appear as early as the 4th. Storms and thunder gusts will quickly follow in western sections, and during the 5th to about the 7th these disturbances will pass over the country in their eastward sweep. Rising barometer will succeed these storms, bringing change of cooler from 7th to the 10th.

The second period is to central on the 11th and 12. The indications are for only moderate barometric and other changes at this time. Threatening clouds with thunder gusts may show themselves over scattering localities, but generally the weather will remain hot and dry. Unsettled and possibly threatening conditions will increase on and touching the 14th.

On this date falls the full moon at an eclipse node, which fact is almost sure to attract the disturbance of the periods immediately before and after the date.

The third period is central on the 17th, reaching from the 15th to the 20th. During the 16th to the 19th very general and forcible storms will pass eastwardly across the country. Thunder and lightning will mark these storms with great emphasis. Earthquakes will be felt in various parts of the globe not far from the 14th. A decidedly high barometer and change to cooler will follow the western flank of these storms.

The fourth period is central on the 22d, 23d and 24th. Very high temperature, low barometer and vicious electrical storms will be very natural during the first stages of the period, but sudden change to high barometer and much cooler will press the western side of the storm area.

The fifth period is central on the 29th, covering the 27th to 31st. As early as the 27th and 28th warning of gathering storms will be noted in many parts of this and other countries. Equinoctial storms and hurricanes will almost certainly develop at this time and reach the Gulf and Atlantic coast regions the last days of August. The crisis of this period will not be over forty-eight hours from 6 o'clock p. m. on the 30th. The temperature will be excessively high over most sections and many storms of rain and thunder and hail, accompanied by violent tornadic gales, will pass over wide areas of the interior portions of the country. The storms of this period will continue into the opening days of September.

MEETINGS.

A CALLED MEETING of the stockholders of the COLONIAL LOAN AND DEPOSIT ASSOCIATION will be held at the offices of said association, No. 128 south Fairfax street, Alexandria, Virginia, on MONDAY, August 7, 1905, at 2 o'clock, p. m., for the purpose of considering certain resolutions of the Board of Directors of said association, adopted on the 17th day of June, 1905, in Havana, Cuba, which resolutions are as follows:

First. This company being now essentially a Cuban institution, with all its financial interests in Cuba, be it resolved that steps be taken to abolish the present legal necessity of holding the stockholders' meetings in Virginia, United States of America.

Second. In order to accomplish the object of the first resolution, and also to make some changes deemed necessary and expedient, be it resolved that it is deemed advisable that the Directors of the Colonial Loan and Deposit Association be authorized and empowered to transfer, by sale, consolidation or otherwise, to another company which is or may be established under the laws of Cuba by the directors of the Colonial Loan and Deposit Association, or by others, or by both, all the assets and liabilities of the old company other than the rights of or against its stockholders derived from the subscription to or possession of stock, said Cuban company to be formed on the basis deemed most expedient for securing more capital for loans and investments, and with the general powers of a trust company.

Third. Be it further resolved that it is deemed advisable that the stockholders of this company whose stock at the time of transfer is unencumbered and up to date in its payments, exchange their stock for paid-up and non-assessable stock of the Cuban company, receiving in stock of the said company an amount equal to the total loan fund credit of their respective certificates of stock, plus 1-6 of 1 per cent. for each month transpired since the first payment on same.

Fourth. Be it further resolved that the stockholders who now have loans may continue their monthly payments as at present, in accordance with the conditions of their respective contracts, until their loans are paid off, but that they may, if they wish, exchange their stock as the other stockholders, and recognize a straight loan in favor of the purchasing company.

Fifth. Be it further resolved that a special meeting of the stockholders of this company be held in Alexandria, Virginia, on the seventh of August, 1905, at 2 p. m., to take action on the above resolutions, and also to arrange all the details of transfer and change that may be deemed necessary and expedient.
